

VILNIUS WITHOUT ITS UGLIEST SOVIET EYESORE!

The time has come to demolish the ruins of the largest Soviet eyesore: the Sports Palace. The time has come to restore the beautiful historic Jewish cemetery of Pirašont in Šnipiškės! Do we want our children to see what the Grand Dukes and Kings saw from the top of Gediminas Hill, that is, the old Jewish cemetery that can be magnificently restored? Or do we want them to see what the Soviet Commissars saw? The Palace of Sports built in the middle of a cemetery, a ghoulish building that has been a source of shame for Vilnius and a curse for Lithuania from the very day it was built?
