It is wonderful and an honor that Professor Dieckmann is teaching a course about the Shoah in Lithuania. The abstract of the course says that it will describe in detail the "German Mass Crimes." I hope the professor will not tow the present Lithuanian government line this time and will honestly explore how Lithuania today is glorifying the WWII Nationalists who were also responsible, led and took part in the mass murder of Jews in that country. The theory of Double Holocaust should not be tolerated in the esteemed walls of YIVO. <http://defendinghistory.com/another-one-sided-yivo-course-on-the-lithuanian-holocaust-in-new-york-city/96762>
