Subject:

Dovid,

You are doing everything you can to attack me. Your filth is now coming from multiple angles.

You are mentally ill, and I am not going to let your mental illness, your hate campaigns, your grievances and your jealousies impact my life and what I do.

I will be releasing the data I have on you. Let the chips fall where they may. The only winners are the government of Lithuania. You have gone way too far this time.
