

16 June, 1980

Dear Dr. Guggenheim-Grünberg,

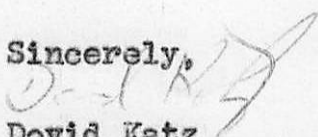

Many thanks indeed for your reply to my last letter. I managed to get the Surbtaler Jiddisch records transcribed onto cassettes and the reel-to-reel tape of Gailinger Jiddisch arrived in the post only two or three days ago and I'm hoping to soon get it transcribed onto a cassette.

You mentioned that I could purchase a copy of the conversation transcribed in the Field of Yiddish I directly from you. I would be most thankful if this could be done on high quality cassette but of course, whatever is possible will do. I am enclosing herein £5 in cash which I hope covers the cost and expenses but if it doesn't please let me know and I will send you the balance.

If you might possibly be able to tell me where I might be able to look for the 1385 Gerichtsprotokollen, I would be deeply indebted and will of course thank you for your help.

I'm enclosing here an offprint of a little article which was submitted before I began corresponding with you. Future revision will of course take into account the most valuable information and comments you so kindly provided wme with.

Sincerely,

David Katz
